School of Social Work**

**MASTERS OF SOCIAL WORK PROGRAM
LAST COMPLETED ON June, 2014**

***NOTE: More details related to these data (along with other measures) can be found in the additional attachment posted on our website, under MSW Assessment**

This form is used to assist the COA in the evaluation of the program's compliance with *Accreditation Standards* stated below.

4.0.2: *The program provides summary data and outcomes for the assessment of each of its competencies, identifying the percentage of students achieving each benchmark.*

4.0.4: *The program uses Form AS 4 (B) and/or Form AS4 (M) to report its most recent assessment outcomes to constituents and the public on its website and routinely up-dates (minimally every 2 years) these postings.*

All Council on Social Work Education programs measure and report student learning outcomes. Students are assessed on their mastery of the competencies which comprise the accreditation standards of the Council on Social Work Education. These competencies are dimensions of social work practice which all social workers are expected to master during their professional training. A measurement benchmark is set by the social work programs for each competency. An assessment score at or above that benchmark is considered by the program to represent mastery of that particular competency.
